

CAPABILITY STATEMENT

Powering Nations Since 1958

High-voltage transmission, substations and critical infrastructure for national utilities, energy producers and governments across Asia, the Middle East and Africa. Founded in Lahore in 1958; Registered with the Pakistan Engineering Council, Licence No. 1, the first licence the Council issued.

1958

Founded in Lahore

7

Countries across three regions

500 kV

Transmission, up to HVDC

No. 1

PEC licence

CAPABILITIES

01 Power Transmission

Overhead transmission lines from 66 kV to 500 kV and HVDC, delivered from foundations and tower erection to conductor stringing and complete turnkey lines.

02 Substations

Construction and civil works for grid substations, from the 500/220 kV substation at Peshawar to substations built with line contracts in Libya.

03 Distribution & Industrial Power

Medium-voltage networks, oil-field electrical systems and live-line maintenance for utilities and energy producers.

04 Civil Infrastructure

Motorways, bridges, water supply, sewerage and urban development for national and provincial authorities.

05 Telecommunications

Fibre-optic and communication networks integrated with high-voltage transmission.

SELECTED PROJECTS

Benghazi–eastern border 220 kV double-circuit lines, 750 km

[Libya · 220 kV · 750 km](#)

Samnu–Sebha 220 kV double-circuit twin-bundle line

[Libya · 220 kV](#)

Barotha–Rewat 500 kV transmission lines

[Pakistan · 500 kV · 156 km](#)

Songo–Apollo ±533 kV HVDC transmission line

[Mozambique · ±533 kV DC](#)

Ayer Tawar–Junjung 500 kV double-circuit line, 80 km

[Malaysia · 500 kV · 80 km](#)

380/110 kV overhead lines and fibre-optic network, Makkah, Taif and Madinah

[Saudi Arabia · 380 kV](#)

PRESENCE

Pakistan · Libya · Saudi Arabia · Iraq · Malaysia · Mozambique · Iran

REGISTRATION

Pakistan Engineering Council, Licence No. 1, covering electrical, civil, mechanical and building works. Pre-qualified: NHA and WAPDA. Projects financed by the World Bank, Asian Development Bank and Islamic Development Bank.
