

PROJECT LIST

Projects Across Seven Countries

Transmission lines, substations, distribution networks, oil-field electrical systems and civil infrastructure, by country.

Pakistan

HEADQUARTERS · TRANSMISSION & INFRASTRUCTURE

PROJECT	CLIENT	SECTOR	KV	KM
Fatima Jinnah Town Phase I infrastructure, Multan	Multan Development Authority	Civil and infrastructure	–	–
Fatima Jinnah Town Phase I water supply and paving, Multan	Multan Development Authority	Civil and infrastructure	–	–
Khan Village Housing, Chakri Road, Rawalpindi	Khan Village Housing	Civil and infrastructure	–	–
Dream Land Housing City Vehari, Phase II	Dream Land Housing	Civil and infrastructure	–	–
Dream Land City Chishtian	Dream Land Housing	Civil and infrastructure	–	–
Dream Land City Housing Mian Channu, Phase III	Dream Land Housing	Civil and infrastructure	–	–
Dream Land City Vehari, Phase I	Dream Land Housing	Civil and infrastructure	–	–
Gujrat city water supply system (Group II)	Public Health Engineering Department, Gujrat	Civil and infrastructure	–	–
Periodic maintenance, KM 1104+000 to 1106+500	National Highway Authority	Civil and infrastructure	–	–
Development works, M-3 Industrial City, Faisalabad	FIEDMC, Faisalabad	Civil and infrastructure	–	–
Mardan–Swabi bypass road	Pakhtunkhwa Highways Authority (formerly Frontier Highway Authority)	Civil and infrastructure	–	–
Swabi–Topi road improvement, Package 1	Pakhtunkhwa Highways Authority (formerly Frontier Highway Authority)	Civil and infrastructure	–	–
Chach Interchange, Motorway M-1	National Highway Authority	Civil and infrastructure	–	–
Dream Land Housing City, Mian Channu	Dream Land Housing	Civil and infrastructure	–	–

PROJECT	CLIENT	SECTOR	KV	KM
Sialkot International Airport, Package III-A-3 landside works (2011)	Sialkot International Airport Ltd (SIAL)	Civil and infrastructure	–	–
Dualisation of old G.T. Road, Gujranwala (2010)	Provincial Highway Division, Gujranwala	Civil and infrastructure	–	–
Fencing and barbed wire on bypasses (TMP-BWP), Sections I and II (2009)	National Highway Authority	Civil and infrastructure	–	–
Hafizabad to Pindi Bhattian Interchange road (widening and improvement)	Provincial Highway Division, Gujranwala	Civil and infrastructure	–	–
Narowal–Lahore road via Baddomalhi, Narang and Kala Khatai (2009)	Provincial Highway Division, Sialkot	Civil and infrastructure	–	–
Narowal–Lahore road, Group I and II (KM 3 to 13)	Provincial Highway Division, Sialkot	Civil and infrastructure	–	–
Sambrial Dry Port–Dhanawali metalled road, Group 2	Provincial Highway Division, Sialkot	Civil and infrastructure	–	–
Sargodha–Salam Interchange road via Bhalwal (widening and improvement)	Provincial Highway Division, Faisalabad	Civil and infrastructure	–	–
Star City Housing Society, Vehari	Star City Housing	Civil and infrastructure	–	–
Barotha–Rewat 500 kV transmission lines	NGC (formerly NTDC) / WAPDA	Transmission lines	500	156
Sambrial Dry Port–Dhanawali metalled road (2007)	Provincial Highway Division, Sialkot	Civil and infrastructure	–	–
Twenty housing units	Private sector	Civil and infrastructure	–	–
Dualisation of old G.T. Road, Gujranwala (2006)	Provincial Highway Division, Gujranwala	Civil and infrastructure	–	–
Fencing and barbed wire on bypasses (TMP-BWP), Sections I and II (2005)	National Highway Authority	Civil and infrastructure	–	–
Ghazi-Barotha Hydropower Project, civil works	WAPDA	Civil and infrastructure	–	–
Narowal–Lahore road via Baddomalhi, Narang, Kala Khatai and Shahdara (2005)	Provincial Highway Division, Sialkot	Civil and infrastructure	–	–
Pindi Bhattian–Faisalabad Motorway (M-3)	National Highway Authority	Civil and infrastructure	–	52.5
Sialkot International Airport, Package III-A-3 landside works (2005)	Sialkot International Airport Ltd (SIAL)	Civil and infrastructure	–	–
DHA Lahore Phase V internal roads	Defence Housing Authority Lahore	Civil and infrastructure	–	–
DHA Lahore Phase VI Main Boulevard	Defence Housing Authority Lahore	Civil and infrastructure	–	–
DHA Lahore Phase VI structures, water supply, electrification and street lights	Defence Housing Authority Lahore	Civil and infrastructure	–	–
Fencing and barbed wire on bypasses (TMP-BWP), Sections I and II (2004)	National Highway Authority	Civil and infrastructure	–	–

PROJECT	CLIENT	SECTOR	KV	KM
Re-carpeting of roads and streets, sectors G-6 and G-7, Islamabad	Capital Development Authority	Civil and infrastructure	–	–
Raiwind–Kasur road widening	Punjab Highway Department	Civil and infrastructure	–	6
Synthetic turf, Hockey Stadium Faisalabad	Faisalabad Development Authority	Civil and infrastructure	–	–
ADB rural access road No. 12041, Chanjri Nawabeala Link, District Bhakkar	Punjab Communication and Works Department	Civil and infrastructure	–	9.09
ADB rural access road No. 14411, Sholawal–Raza Abad, District Okara	Punjab Communication and Works Department	Civil and infrastructure	–	17.96
ADB rural access road No. 15316, Bhoa Hassan–Rarka Bala, District Mandi Bahauddin	Punjab Communication and Works Department	Civil and infrastructure	–	16.64
ADB rural access roads project	Punjab Communication and Works Department	Civil and infrastructure	–	–
Islamabad Expressway, Faizabad to Flying Club turning	Capital Development Authority	Civil and infrastructure	–	–
Japanese-assisted rural road No. 13301-III, District Kasur	Punjab Communication and Works Department	Civil and infrastructure	–	7.35
Plant-mixed asphalt concrete for road carpeting, Faisalabad	National Logistics Cell	Civil and infrastructure	–	–
Rural access road No. 14217, Teh Kalan–Dhariwal, District Kasur	Punjab Communication and Works Department	Civil and infrastructure	–	6.79
Ghazi–Faqirabad road repairs	Ghazi-Barotha Contractors (GBC)	Civil and infrastructure	–	–
Guddu–Sibi 220 kV transmission lines (Section II)	NGC (formerly NTDC)	Transmission lines	220	175
Peshawar–Daudkhel 220 kV double-circuit line	NGC (formerly NTDC)	Transmission lines	220	122
Gujranwala–Chenab Bridge additional carriageway	National Highway Authority	Civil and infrastructure	–	48.57
Peshawar 500/220 kV substation	NGC (formerly NTDC)	Substations	500	–
Chenab Bridge–Kharian additional carriageway	National Highway Authority	Civil and infrastructure	–	44.67
Lahore canal bank roads rehabilitation	Punjab Communication and Works Department	Civil and infrastructure	–	52
Sukkur–Kot Bangalow road rehabilitation	National Highway Authority	Civil and infrastructure	–	55
Wahdat Road improvement, Lahore	Lahore Development Authority	Civil and infrastructure	–	–
Rohri–Kot Diji road rectification and periodic maintenance	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	217
Nowshera–Mardan dual carriageway	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	23

PROJECT	CLIENT	SECTOR	KV	KM
Kot Diji–Kandiaro road	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	31
Tarbela–Salt Range 500 kV second circuit	NGC (formerly NTDC)	Transmission lines	500	174
Jamshoro–Karachi 220 kV double-circuit line	WAPDA	Transmission lines	220	130
Larkana–Jamshoro 500 kV transmission line	WAPDA	Transmission lines	500	257
Tarbela–Burhan 220 kV double-circuit line (foundations)	IEC / WAPDA	Transmission lines	220	–
Tarbela–Faisalabad 500 kV transmission line (foundations)	IEC / WAPDA	Transmission lines	500	–
Khairabad–Nowshera national highway rehabilitation	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	26.4
Makran Coastal Highway, Ormara–Pasni section II	National Highway Authority	Civil and infrastructure	–	51.12
Peshawar–Charsadda road rehabilitation	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	26.8
Rohri–Kot Diji road rehabilitation	National Highway Authority (formerly National Highway Board)	Civil and infrastructure	–	44.7
Three overhead water reservoirs, Lahore Cantt.	Lahore Cantt. Cooperative Housing Society	Civil and infrastructure	–	–

Libya

TRANSMISSION & OIL-SECTOR POWER

PROJECT	CLIENT	SECTOR	KV	KM
Samnu–Sebha 220 kV double-circuit twin-bundle line	GECOL	Transmission lines	220	–
Jalo area infrastructure works	GEC	Civil and infrastructure	–	–
33 kV transmission lines and substations	GECOL (formerly ELPCO)	Distribution	33	–
66 kV double-circuit single-conductor line: foundations, erection and stringing	Electrical Construction Company (ECCO)	Transmission lines	66	–
Raguba hi-line replacement, Phase III	Sirte Oil Company	Oil-field electrical	–	–
Ammonia I and II plants installation works	Sirte Oil Company	Industrial electrical	–	–
Electrification of four wells, Messla and Sarir	Arabian Gulf Oil Company	Oil-field electrical	–	–
66 kV double-circuit single-conductor line: stringing	Electrical Construction Company (ECCO)	Transmission lines	66	–
Hot-line maintenance of a 138 kV transmission line	Waha Oil Company	Oil-field electrical	138	–
Sarir field electrical refurbishment in hazardous areas	Arabian Gulf Oil Company	Oil-field electrical	–	–
Sarir field underground cable works	Arabian Gulf Oil Company	Oil-field electrical	–	–
Underground telephone cable civil works, Aziziya to Gharyan	Arabian Gulf Oil Company	Pipelines and telecom	–	–
Steel pole refurbishment, 33 kV Sarir and 11 kV Messla overhead lines	Arabian Gulf Oil Company	Oil-field electrical	33	–

PROJECT	CLIENT	SECTOR	KV	KM
Benghazi–eastern border 220 kV double-circuit lines, 750 km	S.O.E.	Transmission lines	220	750
Sarir area 11 kV overhead lines	Arabian Gulf Oil Company	Oil-field electrical	11	–
Messla field 33 kV cable termination	Arabian Gulf Oil Company	Oil-field electrical	33	–
Messla field cathodic protection	Arabian Gulf Oil Company	Oil-field electrical	–	–
Sarir field flow line, 20 km	Arabian Gulf Oil Company	Pipelines and telecom	–	20
Hamada field corroded trunk line renewal, 15 km extra job	Arabian Gulf Oil Company	Pipelines and telecom	–	15
220 kV transmission line maintenance (1994)	GEC	Transmission lines	220	–
Al-Quasim underground power cable (1994)	GEC	Distribution	–	–
El Giza electrical power supply	Arabian Gulf Oil Company	Oil-field electrical	–	–
Hamada field corroded trunk line renewal	Arabian Gulf Oil Company	Pipelines and telecom	–	–
Hamada field crude oil pipeline modification	Arabian Gulf Oil Company	Pipelines and telecom	–	–
Hamada field flow line, 15 km	Arabian Gulf Oil Company	Pipelines and telecom	–	15
Messla field 11 and 33 kV lines and four substations	Arabian Gulf Oil Company	Oil-field electrical	33	–
Nafoora field 4,000-barrel water tank	Arabian Gulf Oil Company	Civil and infrastructure	–	–
Nafoora field water source well electrification	Arabian Gulf Oil Company	Oil-field electrical	–	–
Tajoura underground power cable (1994)	GEC	Distribution	–	–
Zuwara 11 kV line	GEC	Distribution	11	–
22.3 km, 8-inch crude oil trunk line	Arabian Gulf Oil Company	Pipelines and telecom	–	22.3
220 kV transmission line maintenance (1993)	GEC	Transmission lines	220	–
220 kV transmission line maintenance (1992)	GEC	Transmission lines	220	–
Tajoura underground power cable (1992)	GEC	Distribution	–	–
Al-Quasim 11 kV and LT underground cables (1991)	GEC	Distribution	11	10.65
Potable water pipeline	Arabian Gulf Oil Company	Civil and infrastructure	–	–
Hun–Wadi Arial–Samnu 220 kV transmission line	GECOL (formerly ELPCO)	Transmission lines	220	–
30 kV and 11 kV cable works	GECOL (formerly ELPCO)	Distribution	30	–
Jabal al Gharbi 66 kV transmission lines	GEC	Transmission lines	66	–
Nalut–Ghadames 66 kV transmission line and extensions	GECOL (formerly ELPCO)	Transmission lines	66	–
Tripoli area 30 kV transmission lines, 200 km	GECOL (formerly ELPCO)	Distribution	30	200

PROJECT	CLIENT	SECTOR	KV	KM
Tripolitania 11 kV overhead lines	ECT	Distribution	11	–
Tripolitania 30 kV transmission lines (1981)	Energoinvest / S.O.E.	Distribution	30	–
Jalo oasis 30 kV transmission lines	GECOL (formerly ELPCO)	Distribution	30	–
Misurata–Sirte 220 kV lines and Tripoli ring	GECOL (formerly ELPCO)	Transmission lines	220	–
Tripolitania 30 kV transmission lines (1980)	GECOL (formerly ELPCO)	Distribution	30	–
30/10 kV substations, Harbour site, Bab al-Aziziya and Suq al-Juma: civil works	Energoinvest	Substations	30	–
Zuwara, Al-Asa and Zliten desalination plants: civil works	ITOCHU Corporation (formerly C. Itoh & Co.)	Civil and infrastructure	–	–

Saudi Arabia

TRANSMISSION & FIBRE NETWORKS

PROJECT	CLIENT	SECTOR	KV	KM
Riyadh HV and LV overhead distribution network, up to 35 kV	Saudi Electricity Company (WOA)	Distribution	35	–
380/110 kV overhead lines and fibre-optic network, Makkah, Taif and Madinah	Saudi Electricity Company (WOA)	Transmission lines	380	–
Distribution network up to 33 kV, Makkah, Taif and Madinah	Saudi Electricity Company (WOA / SOA / COA)	Distribution	33	–
Wadi Al Faraa 33 kV distribution network	Saudi Electricity Company (WRB)	Distribution	33	–
Mahd Al Dhahab 33 kV distribution network	Saudi Electricity Company (WRB)	Distribution	33	–
Hajur Phase 1 and Wadi Al Faraa II underground distribution connections	Saudi Electricity Company (WOA)	Distribution	33	–
Makkah 33/13.8 kV underground and overhead distribution network (2009)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Wadi Jaleel 380/110 kV line: access roads and tower foundations	EWR / National Power Construction Corporation	Transmission lines	380	–
HV and LT underground distribution network expansion, up to 35 kV	Saudi Electricity Company (WOA)	Distribution	35	–
Shoaiba–Jeddah 380 kV overhead transmission line	EWR / MASS	Transmission lines	380	–
Tihama–Suffa 132 kV double-circuit overhead line	Saudi Electricity Company (SRB)	Transmission lines	132	–
110 kV underground power cable laying	Siemens / Saudi Electricity Company (WRB)	Transmission lines	110	–
Radwan 33 kV distribution network	Saudi Electricity Company (WRB)	Distribution	33	–
Yanbu North double-circuit overhead line	Saudi Electricity Company (WRB)	Transmission lines	–	–
Jamia 380 kV to Hamrah 110 kV underground cable	MASS Project / Saudi Electricity Company (WRB)	Transmission lines	110	–

PROJECT	CLIENT	SECTOR	KV	KM
110 kV overhead line to King Khalid National Hospital substation, Jeddah	EWR / Siemens	Transmission lines	110	–
132 kV cable circuits between substations 8007, 8075 and 8060, Riyadh	Saudi Electricity Company (CRB)	Transmission lines	132	–
Energy meters and standby generator interlocking, Al Minar Village, Jeddah	Ministry of Defence and Aviation (MODA)	Distribution	–	–
Makkah 33/13.8 kV underground and overhead distribution network (2001)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Usheyrāh–Al Mowayyah 110 kV overhead transmission line	EWR / Siemens	Transmission lines	110	–
Makkah 33/13.8 kV underground and overhead distribution network (2000)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
HT and LT cable trenching and laying for substation networks, Makkah	Saudi Electricity Company (formerly SCECO)	Distribution	–	–
Makkah 33/13.8 kV overhead distribution network (1999)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Mobile telecom repeater stations, Western Region	SOI / LTII	Pipelines and telecom	–	–
110 kV cable trenching and laying, EWR Project No. 131/1/13, Jeddah	EWR / Suedrohrbau	Transmission lines	110	–
Yanbu–Madinah 380 kV and Badr–Al Musayjid 110 kV line rehabilitation	Saudi Electricity Company (formerly SCECO) / National Power Construction Corporation	Transmission lines	380	–
Umm Al-Qura University–South Aziziyah 110 kV double-circuit line, Makkah	Saudi Electricity Company (formerly SCECO) / Siemens	Transmission lines	110	–
Jeddah 33 kV underground and overhead distribution network	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Makkah 33/13.8 kV underground and overhead distribution network (1993)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Riyadh 33/13.8 kV underground and overhead distribution network (1992)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Tower foundation protection, 110 kV line, Madinah	Saudi Electricity Company (formerly SCECO)	Transmission lines	110	–
Makkah 33/13.8 kV underground and overhead distribution network (1991)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Riyadh 33/13.8 kV underground distribution network (1991)	Saudi Electricity Company (formerly SCECO)	Distribution	33	–
Makkah 13.8 kV underground and overhead distribution network (1990)	Saudi Electricity Company (formerly SCECO)	Distribution	13.8	–
Riyadh 13.8 kV underground and overhead distribution network (1990)	Saudi Electricity Company (formerly SCECO)	Distribution	13.8	–
Underground power cable around the Haram Sharif, Makkah	Royal Committee for Development	Distribution	–	–
Makkah 110 kV overhead line extension and reinforcement	Saudi Electricity Company (formerly SCECO)	Transmission lines	110	–

PROJECT	CLIENT	SECTOR	KV	KM
Yanbu 132 kV double-circuit line (foundations)	Saudi Electricity Company (formerly SCECO)	Transmission lines	132	–
Al Jouf 13.8 kV overhead lines and distribution network	NEPCO	Distribution	13.8	–
Shoaiba–Makkah–Taif 110 kV towers: assembly and erection	Saudi Services for Electro-Mechanic Works (SSEM) / SECC	Transmission lines	110	–
Makkah–Taif 110 kV overhead line extension	Saudi Electricity Company (formerly SCECO) / Siemens	Transmission lines	110	–

Iraq

HIGH-VOLTAGE TRANSMISSION

PROJECT	CLIENT	SECTOR	KV	KM
Amara 132 kV line, 30 km (stringing)	State Organization of Electricity	Transmission lines	132	30
Amara–Al-Adel 33 kV line, 22 km (stringing)	State Organization of Electricity	Distribution	33	22
Erection of 57 special towers	Ministry of Defence (Iraq)	Pipelines and telecom	–	–
Mosul Dam–Dohuk 132 kV line, 60 km	State Organization of Electricity	Transmission lines	132	60
Rutba 33 kV line, 103 km (stringing)	State Organization of Electricity	Distribution	33	103
Wasit–Kut 132 kV line, 26 km (stringing)	State Organization of Electricity	Transmission lines	132	26
Akashat–Rutba 132 kV line, 100 km (stringing)	State Organization of Electricity	Transmission lines	132	100
Baghdad East–Baquba 400 kV line, 35 km (stringing)	State Organization of Electricity	Transmission lines	400	35
Baghdad West–Baiji 400 kV line, 208 km	State Organization of Electricity	Transmission lines	400	208
Basrah–Al Qaim and Nasiriya–Baquba 33 kV lines, 120 km	State Organization of Electricity	Distribution	33	120
Hadiya–Al Baghdadi 33 kV line, 35 km	State Organization of Electricity	Distribution	33	35
Kirkuk 132 kV lines, 45 km	State Organization of Electricity	Transmission lines	132	45
Tuz–Hamrin 33 kV line, 65 km (stringing)	State Organization of Electricity	Distribution	33	65
Special telephone buildings 1-BP and 4-BP, Baghdad	PTT / Nippon Telecommunication Construction Co.	Pipelines and telecom	–	–
Baghdad telephone exchange network and Tikrit cable network	PTT / Mitsubishi Corporation	Pipelines and telecom	–	–
Baghdad West–Tameem 132 kV line, 225 km	State Organization of Electricity	Transmission lines	132	225
Nasiriya–Wasit–Baghdad 400 kV line, 358 km	State Organization of Electricity	Transmission lines	400	358
Dukan–Erbil 132 kV line, 98 km	State Organization of Electricity / Energoinvest	Transmission lines	132	98
Khor Al-Zubair–Nasiriya and Khor Al-Zubair–Hartha lines (stringing)	State Organization of Electricity	Transmission lines	–	311
Dukan–Kirkuk 132 kV line, 76 km	State Organization of Electricity	Transmission lines	132	76
Dukan–Sulaymaniyah 132 kV line, 65 km	State Organization of Electricity	Transmission lines	132	65

PROJECT	CLIENT	SECTOR	KV	KM
West-Hariya 132 kV line, 25 km	State Organization of Electricity	Transmission lines	132	25
West-Maria 132 kV lines, 50 km	State Organization of Electricity	Transmission lines	132	50

Malaysia

500 KV TRANSMISSION

PROJECT	CLIENT	SECTOR	KV	KM
Ayer Hitam–Yong Peng 275 kV double-circuit line, 40 km	Tenaga Nasional Berhad (TNB)	Transmission lines	275	40
Ayer Tawar–Junjung 500 kV double-circuit line, 80 km	Tenaga Nasional Berhad (TNB)	Transmission lines	500	80
Junjung–Gurun 500 kV double-circuit line, 20 km	Tenaga Nasional Berhad (TNB)	Transmission lines	500	20

Mozambique

HVDC TRANSMISSION

PROJECT	CLIENT	SECTOR	KV	KM
Songo–Apollo ±533 kV HVDC transmission line	Consorzio Italia 2000	Transmission lines	±533 DC	–

Iran

HIGH-VOLTAGE TRANSMISSION

PROJECT	CLIENT	SECTOR	KV	KM
Tehran–Neka 400 kV transmission line	Furukawa Electric Co.	Transmission lines	400	–
Shiraz–Bushehr 230 kV transmission line (stringing)	James Scott	Transmission lines	230	–

Nazir and Company (Pvt) Ltd. Registered with the Pakistan Engineering Council, Licence No. 1.
