- Tunnels & Underpasses
- Airports & Taxiways
- Highways Restorations, Recycling & Milling
- Dams & Barrages
- Drain Works
- River Training & Irrigation Works
- Water Front Structures
- Housing Societies, Highrise Buildings & Multistoried Complexes
- Water Supply Networks
- Sewerage Systems
- Dewatering Systems & Well Point
- Chimneys & Towers
- Piles, Diaphragm Walls, Bored Anchors
- Camp development

THE FOUNDER

Our company's founder, the late Sheikh Nazir Ahmed, was a visionary and self-made individual who recognized the urgent need for dynamic construction firms in the newly established country. In 1958, he established this company from scratch, with the aim of undertaking mega projects that required a high level of technical and managerial capability. Sheikh Nazir Ahmed was a strong believer in human resource development and surrounded himself with the best available talent, providing them with a conducive environment that made our firm a lifelong employment provider.

Under his leadership, the company quickly rose to new heights, with operations spanning across Pakistan. In 1972, it was incorporated as a private limited company, working across various civil, electrical, and mechanical fields. The company has since executed a large number of projects in power transmission, grid stations, telecommunication towers, highways, bridges, and other civil engineering works.

Under his guidance, the company achieved another milestone in 1975, establishing its first branch office abroad in Libya. Today, the company is still actively engaged in all installations abroad. Subsequently, other branch offices were established in Iran, Iraq, Middle East States, and the United Kingdom.

Sheikh Nazir Ahmed's vision, values, and spirit continue to inspire our company, even after his demise. He left us with a great asset of his concepts, ideas, and principles that remain the guiding force for our group. Although he is no longer with us, his legacy lives on in the hearts of those who had the opportunity to work with him.

NAZCON

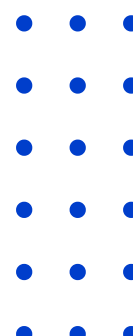

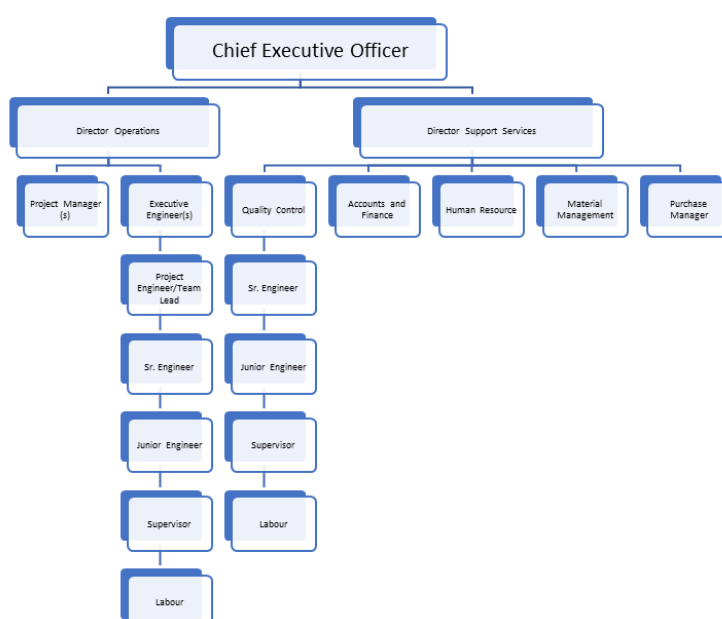

Nazir Construction Concepts (Pvt.) Ltd. (Nazcon) is a subsidiary of Nazir & Co, a well-established infrastructure development contractor based in Pakistan and active worldwide. Since our founding in 2004, we have expanded our operations to the UK, Saudi Arabia, and Pakistan, and we are now actively pursuing opportunities in the Middle East and Africa.

At Nazcon, we specialize in providing a wide range of services to our clients, including electrical transmission and distribution works, solar and renewable energy projects, oil and gas sector projects, as well as manpower and material supply. Our team consists of skilled professionals with extensive industry experience, enabling us to deliver high-quality services to our clients.

We are proud to be pre-qualified by the National Highway Authority (NHA), Water and Power Development Authority (WAPDA), and Communication and Works (Govt. of Punjab), and have executed numerous projects financed by the World Bank, Asian Development Bank, Islamic Development Bank, both in Pakistan and abroad.

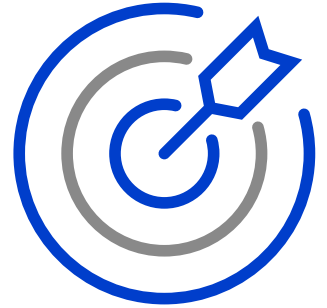

We are committed to delivering projects on time, within budget, and to the highest standards of quality and safety. We work closely with our clients to fully understand their requirements and tailor our services to meet their specific needs. Our ultimate goal is to provide exceptional services and exceed our clients' expectations.

ORGANIZATION CHART

MISSION STATEMENT

To be a customer-driven leader in the construction and consultant industry, delivering exceptional civil, electrical, and mechanical services that exceed client expectations. We strive for quality, innovation, and social responsibility in every project we undertake, and value our employees by offering open communication, performance-based compensation, and career development opportunities.

VISION

To continue as a pioneer in the construction industry by utilizing our technical and managerial capabilities to execute high-quality civil, electrical, and mechanical engineering projects. We strive to lead the industry with innovation, reliability, and dedication to excellence.

ABOUT THE CEO

Shiekh Tanveer Ahmed is a free-spirited man who has been instrumental in managing multinational companies. He has a unique ability to identify talent and nurture it, valuing his team's abilities to drive success. Shiekh Tanveer Ahmed graduated from the University of Houston, Texas, where he received the education necessary to thrive in the competitive business world.

Currently, he is the CEO of NAZON, a subsidiary of Nazir & Co. He has held several leadership positions, including Resident Director of Libya for NAZIR & Co., where he gained a wealth of experience in dealing with the Middle East construction industry. His time as Resident Director in KSA for NAZIR & Co. gave him further insight into the unique challenges that arise in the construction industry, equipping him to deal with them with finesse.

His expertise in project management and procurement is demonstrated in his role as Director of Projects and Procurement, where he has overseen the successful delivery of a range of projects across various sectors. Through his exceptional leadership and management skills, Shiekh Tanveer Ahmed has demonstrated a strong ability to drive the company's growth, lead his team, and deliver successful outcomes for clients.

With his extensive experience and a track record of success, Shiekh Tanveer Ahmed is a highly respected and sought-after industry expert in the construction sector. He is passionate about leading his team to achieve excellence in every project, upholding the company's reputation for delivering world-class construction services.

SHEIKH TANVIR AHMED

Chief Executive Officer

SERVICES

Maintaining long-term relationships with clients, subcontractors, architects, consultants, lenders, and government agencies, many of which date back several years, and providing high-quality construction services on time and within budget are fundamental to Nazcon's reputation.

Despite the scale of some of our projects, Nazcon operations maintain the personal touch of a family business. The company's founders are familiar with every project's specifics at every stage of construction. Throughout the course of a project, a dedicated team is assigned, but clients always have access to a wide range of internal resources, including:

- Estimating services
- Scheduling and logistics
- Value engineering with a focus on feasibility and optimal economic return
- Site Safety
- Purchasing power that meets procurement requirements of any project

The company is actively participating both in national and international bidding in the following fields:

ELECTRICAL, TRANSMISSION & DISTRIBUTION WORKS

Nazcon has established itself as a leading player in the Power Transmission and Grid Station industry, executing contracts against international competitors. We have a proven track record of successfully completing projects in Pakistan and beyond, and have expanded our reach with branch offices in Iran, Iraq, the Middle East, and the United Kingdom.

Our expertise in the industry covers **all types of Power Transmission Lines**, as well as **all types of Grid Station, Sub Stations and related Civil Works**. With a team of skilled professionals and a commitment to delivering quality services, we are dedicated to meeting the needs of our clients and ensuring the successful completion of their projects.

SOLAR / RENEWABLE ENERGY (COMPLETE TURNKEY PROJECTS)

Nazcon is a leading provider of customized solar and renewable energy solutions, offering complete turnkey projects that bring the power of sustainable energy within your reach. Our services cover every aspect of the process, from initial consultation to final installation and ongoing maintenance.

Our team of experienced professionals employs a cost-effective, streamlined commissioning process and superior asset management approach to ensure that your solar/renewable energy projects are completed on time, within budget, and to the highest standards of quality and safety.

MANPOWER & EQUIPMENT

With over 10 years of experience in engineering and being one of the largest construction groups in Pakistan, NAZCON boasts a vast pool of qualified employees and cutting-edge engineering equipment necessary for executing any project of any size or type. Our range of expertise covers diverse fields such as Power Plants, Oil & Gas, Road Infrastructure, Buildings, Airports/Aviation, Environmental, and Water & Irrigation. We have a highly skilled project management team that ensures smooth project execution from planning, design, implementation, testing to final execution.

Our inventory of machines includes the latest equipment for concrete, earthwork, road construction, drilling, dewatering, mechanical fabrication, and erection machines, including the latest concrete batching and placing equipment, asphalt plants, and related machinery from top brands around the world.

Additionally, we maintain complete electromechanical and maintenance facilities centrally and at all our projects to ensure the efficient functioning of machinery, preventing delays in project completion. At NAZCON, we are dedicated to delivering top-notch services that meet and exceed client expectations, making us a leader in the construction and engineering industry.

OIL AND GAS

Nazcon is a leading provider of Oil and Gas services, offering a comprehensive range of solutions to clients across Pakistan and beyond. With a proven track record of delivering high-quality services, we have established ourselves as a trusted partner for clients in the Oil and Gas industry. Our expertise in the industry covers a wide range of services, including construction, commissioning, and maintenance of Oil and Gas plants, pipelines, and related infrastructure.

We have a team of highly skilled professionals who are committed to delivering quality services and meeting the needs of our clients.

At Nazcon, we understand the importance of safety and quality in the Oil and Gas industry, and we follow strict safety protocols and quality control measures to ensure the safety of our employees and the environment, as well as the integrity of the infrastructure we build.

CIVIL & INFRASTRUCTURE WORKS

Nazcon is a leading provider of Civil Works services, offering a comprehensive range of solutions to clients across Pakistan and beyond. With a proven track record of delivering high-quality services, we have established ourselves as a trusted partner for clients in the construction industry.

Our expertise in the industry covers a wide range of services, including the construction of Multistoried Complexes and Housing Schemes, Dams, Barrages, and River Training Works, Sewage Treatment Plants, Sewerage Systems, Highways, and Motorways, as well as Bridges, Flyovers, and Under Passes.

At Nazcon, we understand the importance of safety and quality in the construction industry, and we follow strict safety protocols and quality control measures to ensure the safety of our employees and the environment, as well as the integrity of the infrastructure we build.
